

Year 13 Assessment & Homework Overview

This booklet sets out the assessment and homework schedule for each of the subjects taught in Year 13. It gives an overview of each half-term and the type of assessment and homework that could be set. The schedule is regularly reviewed and subject to change. In each subject area, students are formally assessed a minimum of three times over the school year, after which they will undertake a formal review and feedback process in each subject area. As well as the formal assessments, students will be provided with regular feedback in lessons, known as live marking, as well as undertaking peer and self-assessment tasks.
